STATEMENT OF EXPERIENCE

Working with Mr Mahesh Chavan has been an incredible journey. As a structural engineer, he played a pivotal role in designing and shaping the entire campus of Elppe Chemicals, including our state-of-the-art manufacturing plants. His deep understanding of structural design, attention to detail, and ability to meet all our functional requirements made a significant impact on our operations.

What truly sets him apart is his dedication to continuous learning and staying updated with the latest advancements in structural engineering. This commitment ensures that he always brings the best solutions to the table, making him a trusted partner in any project. Beyond his technical expertise, I have seen him grow into a highly skilled professional, and it has been an honor to mentor him.

I am delighted to see that his organization "Associated Consulting Engineers" has successfully completed 25 years—a testament to his hard work, integrity, and excellence in the field. I wholeheartedly recommend him to anyone seeking a knowledgeable, forward-thinking, and reliable structural engineer.
