**TO WHOMSOEVER IT MAY CONCERN**

I have had the privilege of hand-holding Mahesh Chavan and Team Associated Consulting Engineers through many challenging building repair and retrofitting projects. His strong grasp of structural engineering and problem-solving mindset have made him a valuable professional.

I have seen him grow through platforms like the American Concrete Institute, where he engaged with senior experts and expanded his knowledge. I take great pride in guiding and supporting him in establishing his own concrete laboratory—a true reflection of his commitment to excellence.

As he completes 25 years in the profession, I am confident he will continue making significant contributions to the industry. Wishing him even greater success ahead.

Thanks & Regards,
