ASSOCIATED CONSULTING ENGINEERS
ISO 9001:2015

OUR PROFILE

Associated Consulting Engineers is one of the most dependable companies that specialize in providing consulting services that cover structural design, structural audit, repair and retrofitting and lab test. Our main objective is to help our clients ensure the success of their next engineering projects.

Associated Consulting Engineers is here to help in building and cultivating the future of your project. We are focused on meeting and even surpassing the expectations of our valued clients as we pay close attention to their needs and requirements.

We are truly committed to the core values that we live in this organization, which include:

Quality | Trust | Excellence | Relationship

All of these define and portray how committed we are to our job and to our clients.

Our ultimate mission is to provide the best, reliable and satisfying services to our clients through upgrading their technology and facilities.

Associated Consulting Engineers has been offering structural consultancy services for different areas that include industrial, residential, and public buildings including the different commercial projects.

Our company is dedicated entirely to the structural engineering services. Founded in 2006, our company strives to be the leader in the industry as it provides its services within its head office located in Alibag together with its associate offices that are in Nashik and Roha.

We are a premier consulting firm for engineering that cover the whole konkan area that include Pen, Alibag, Panvel, Ratnagiri, Mahad, Khopoli and Murud. Aside from structural engineering, we are also specializing in the structural drawings and design, site supervision and certification, certification of load that carries the maximum capacity of the existing structures. Structural audit is performed through visual inspection and through the NDT testing. This is also performed to determine the recent condition of the buildings.

Aside from that, we also have expertise in the structural repair and retrofitting. We provide consultancy services for extensive structural repair job on a regular basis. We have our laboratory setup to ensure the quality of the repair job that was executed by our team and we are also giving a guide on the material specifications and budgeting of the project. We are also aware that the durability as well as the safety of all concrete structure will depend on the usage of the correct concrete.

And Associated Consulting Engineers has a testing laboratory that provides:

- Compression testing or cube testing
- Structural and NDT audit
- Concrete mix design

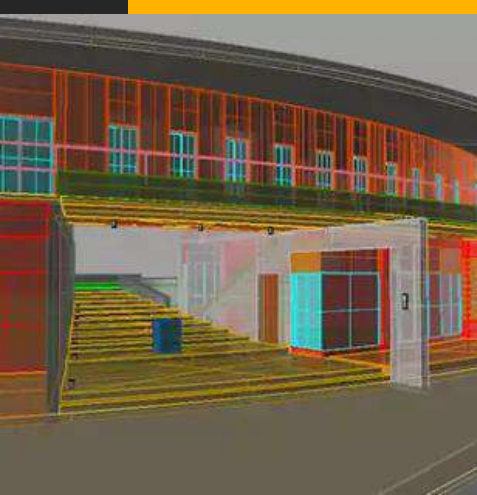

Why Choose Associated Consulting Engineers?

Associated Consulting Engineers is comprised of experienced professionals who are helping the company to reach its objectives and to fulfill its vision and mission. Our major priority is the needs and the satisfaction of our valued customers. We do not stop until we are sure and we can see that our clients are happy with the results.

Our company is giving our very best to make sure that all of the needs and expectations are met, while we make sure that every task is completed right on time. We care more about the satisfaction of our clients and so, it is an honor for us to hear how happy our customers are. We also believe that high quality service does not need to be pricey so as much as possible, we make sure that our rates are suitable even for the tightest budget.

So let us have the chance to work with you soon.
