

To Whom It May Concern.

Reference letter

Being responsible for Expansions Projects for Semperit segment Sempertrans I had a great pleasure to co-operate with company **Associated Consulting Engineers** located in Alibaug, India.

The goal of the project was to conduct entire process of getting Consent To Establish / Building Permit / for future project of Semperit in India.

Associated Consulting Engineers and **Mr. Mahesh Chevan**, its General Manager, have been always presenting excellent care for Customer needs and expectations and demonstrated fantastic expertise level on discussed matters related to the scope of the project.

Associated Consulting Engineers always kept the promises and delivered on time. Time management is the great asset of this company. Agreed dates and terms were ALWAYS kept, meetings were starting always on time and required parts of the project were always delivered as scheduled.

It is worth to mention that thanks to great co-operation with **Associated Consulting Engineers**, company Semperit obtained Consent To Establish / Building Permit / before deadline, but also successfully led Semperit through bidding process for construction of the building.

Having that great experience I recommend company **Associated Consulting Engineers** to any purpose related to field of their expertise.

Should you have any additional questions please contact me directly.

Sincerely yours

Tomasz Lechowicz
Expansions Project Manager
